

Something for Everyone

It takes more than physical well-being to maintain good health. Maintaining balance, developing healthy lifelong habits and making good choices contribute to one's overall well-being and ultimately, academic success. Villisca Wellness Center is located just south of the Enarson Elementary building. The Villisca Wellness Center has something for everyone when it comes to working on healthy choices. The Villisca Wellness Center has a three-lane walking track around a basketball court/volleyball court. The basketball court/volleyball court can be split into two courts to accommodate for youth sports and tournaments.

The weight room at the Villisca Wellness Center is equipped with free weights and state-of-the-art weightlifting machines. Treadmills and elliptical machines are also included in the weight room. Adults and high school students can train using safe and up-to-date equipment. These amenities promote healthier lifestyles for all.

The Villisca Wellness Center can attribute to making our community happier, healthier and stronger. We want our community to experience better quality of life for all ages by choosing healthier choices. With adding another gymnasium to our community we can better accommodate practices, games, community events, etc. It also provides adequate facilities to hold activities such as tournament play, fitness classes and a gym to be used for additional recreation purpose for the community. Come use the Villisca Wellness Center to improve your well-being.....make the healthier choice. We have something for you!
